

Trie Review

Questions and Answers

Indexing Convention

The suffix-trie answer uses 0-based string indices.

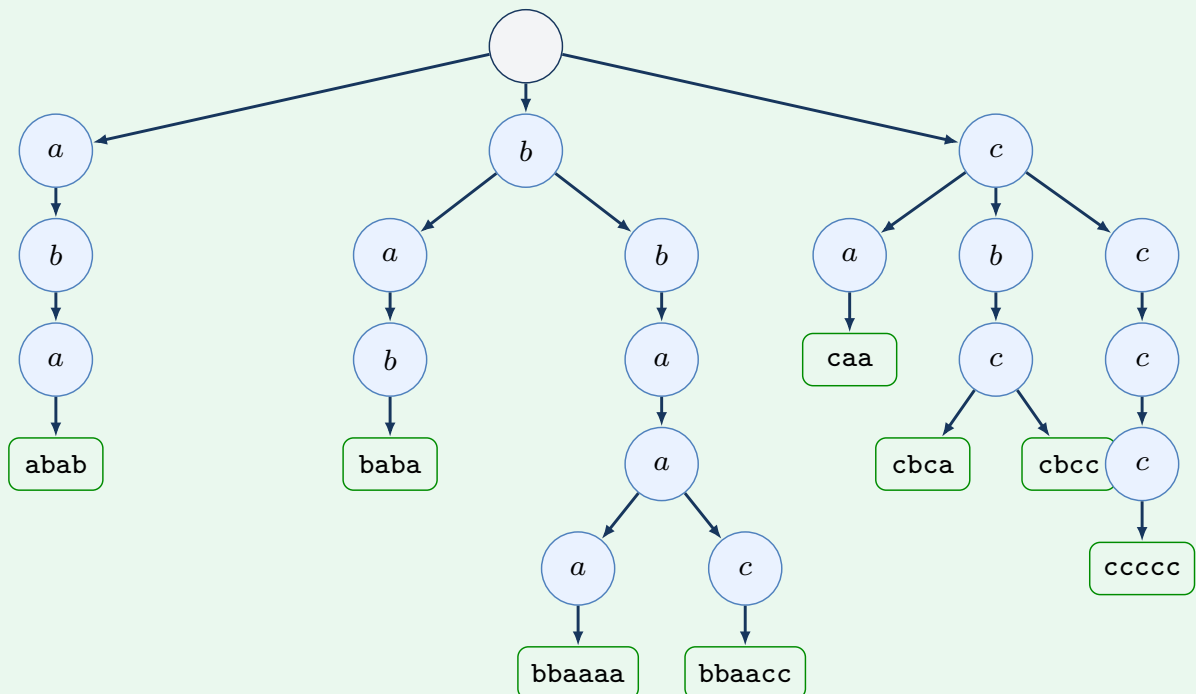

Question

Draw a standard trie for

$\{abab, baba, ccccc, bbaaaa, caa, bbaacc, cbcc, cbca\}$.

Answer

The standard trie uses one character per edge.

Question

Draw a compressed trie for the strings in the previous problem.

Answer

Compress every one-child chain into one edge label.
